

2017 Decatur Parks & Recreation

Adult Softball League Rule Changes

* The rule changes below are amendments to the DPR Adult Softball League Rules previous to the 2017 season and will from this point forward be enforced and in effect. All rule changes will be discussed and explained at the 2017 Spring/Summer coaches meeting held on Feb. 16th, 2017. If you have questions or would like clarification please contact a league representative.

Ball Size Change:

In 2017 Decatur Parks & Recreation Adult Softball League along with ASA women's softball size will be 52/300 11 inch ball. In 2017 52/300 will be the only 11" ball allowed in women's Adult Slow Pitch, Co-ed Slow Pitch. This removes the 44/375 11" ball as an approved ball for all women's Adult Slow Pitch, Co-ed Slow Pitch beginning February 1, 2017.

Safety Notice

***The League is always concerned foremost with player safety and has looked at policies regarding the use of face masks for pitchers. While the League **WILL NOT** require pitchers or any other player to wear protective face masks at this time, it does **strongly encourage** the use of a protective face mask for all pitchers and any other fielders who choose to use one. Ultimately, this a recreational activity and the League wishes to see that no one suffer lifelong effects from participating in such activities.
